

Aero Tect Paint Protection

 **Cessna Beauty
Should Be Marveled,
Not Marred.**

It's a tough world out there. But now Cessna owners can protect their aircraft and its value with **Aero Tect Paint Protection Film Kits.**

Aero Tect computer generated pre-cut film kits include specific pieces that protect areas of the aircraft, including the nose wheel cover, main wheel covers, main landing gear struts, fuel fill steps and door key locks. The Kits are made of 8 mil thick polyurethane protection film, and helps prevent damage caused by rocks, tow bars, scratches and refueling.

Installation is quick and easy and it is completely removable.

**Aero Tect is currently on new deliveries today,
and is available to order for your:
162, 172, 182, 206, 208, 350 or 400.**

*Protects against rocks, tow bars,
scratches, and gravel*

*Covers damage prone areas of the aircraft
with an invisible shield*

*Computer-generated, pre-cut sheets
install quickly*

Won't affect aerodynamics

Completely removable
