

300/400 Available Now For ALL Models

Now STC'd for ALL models of Cessna's

300/400 Series Aircraft. The LORD shimmy damper provides consistent damping without maintenance or the use of hydraulic fluid, therefore - no leakage. It will last 8 - 10 years without service; features a unique rubber formulation with a high-tech lubricant to absorb nose wheel vibration; and LORD shimmy dampers are the choice for all Cessna propeller aircraft in production today.

LORD shimmy damper: P/N SE1090-1
STC: SA02546NY.

Approved for all 300/400 series twins
as an alternate for the 0842410-2 hydraulic damper,
except the T303, 336 and 337.

LORD

Exclusive for the Authorized Cessna Service Network

See CPDXpress Links for application details.
